SW 9600ss (RIB)

SmartStax® RIB Complete®

Released relative to the hot-selling SW 9504VT (RIB) makes a great pairing for grain on fields where below-ground insect protection is needed. The seedling emerges quickly from the soil in the spring and develops into a tall, burly plant with a longer ear that hangs out between the rows in the fall and looks great. Husks flare open to promote rapid grain drydown producing outstanding yields of high-quality grain with superior test weight. Superior stalk health including excellent scores for Anthracnose Stalk Rot plus plant intactness ensure the crop will be standing well at harvest. Expect silage tonnage to run with the best of them and produce a grain rich ration. Only available in a SmartStax® RIB Complete® technology trait package.
