VT Double Pro® RIB Complete

It's all about yield, ranking #1 in its maturity out of more than 50 entries in 2023 SEEDWAY Research Trials with rapid grain drydown. A good-sized plant with a more moderate ear height and an ear that is girthy with some flex. Recommended for both silage and grain use with excellent Anthracnose Stalk Rot ratings to protect standability until harvest. Adapted to the more moderate yield acre and plant density with the ability to move north and south of zone. Only available in a VT Double PRO® RIB Complete® technology trait package so use where Corn Rootworm is not a concern.
