Leafy / Roundup Ready® Corn 2

A beast of a corn that is silage-specific with top performance both in the field and the bunk. Floury leafy genetic combination with large ears, even double ears are possible but keep the population below 30,000 ppa. Produces 25% floury kernels for stellar starch digestibility and reduced storage time before feeding. Unparalleled producer of high-quality tonnage for your herd and a wider harvest window. Towering plant type with a flexible stalk and a tremendous leaf canopy that will wave in the wind and stand for the chopper. Produces long, flex-type ears with soft starch and a distinctive white cob.
