NEW FOR 2027!

Enlist E3® Soybeans

Big yield meets built-in defense with this tough variety that thrives on variable, stress-prone acres. It maintains plant height and very good standability, making harvest smooth and efficient. With strong resistance to Phytophthora and Frogeye, your yield is protected from start to finish. Plus, the excluder gene gives it an edge on high-salinity soils, expanding where you can plant with confidence. Tough, adaptable, and ready to perform when conditions get challenging.
